QPS Evaluation Services, Inc.
Attn: Mr. Nick Maalouf
81 Kelfield Street, Unit 7-9
Toronto, Ontario M9W 5A3
Canada

Dear Mr. Maalouf:

Our office has reviewed your letter dated March 19, 2012 submitted in accordance with Title 46 Code of Federal Regulations (CFR) Part 159.010. Based on the contents of your application and subsequent supporting documentation, our office has determined that your laboratory meets the requirements set forth in 46 CFR 159.010 for the purpose of certifying electrical equipment intended for use in hazardous locations, as outlined in 46 CFR 111.105. The facilities of QPS Evaluation Services are hereby accepted for conducting tests and certifying equipment to UL 913 and UL1203.

QPS Evaluation Services must continue to follow all regulations listed under 46 CFR 159.010 in order to maintain independent laboratory acceptance. The inability to properly perform the required tests or to maintain independent status will result in the termination of U.S. Coast Guard acceptance. If at any time in the future your laboratory's scope, address, or point of contact information changes, please contact our office as soon as possible with the new information. Should you have any further questions, please contact me [REDACTED]

Sincerely,

A handwritten signature in black ink, appearing to read "C. K. MARCY", written over a circular stamp.

C. K. MARCY
